Professional Experience

IT Support & Network Specialist with 7+ years of hands-on experience in networking, technical support, CCTV, PBX, intercom, and low current systems. Skilled in LAN/WAN troubleshooting, wireless connectivity, VLAN basics, and supporting multi-site environments. Experienced in configuring and maintaining network-connected systems including surveillance, access control, and VoIP solutions. Strong background in troubleshooting infrastructure issues, supporting end-users, and maintaining stable network operations. Additionally experienced in software development using modern web technologies, providing strong analytical and problem-solving capabilities.

Professional Experience

- | | |
|---|--|
| IT Support & Network Technician , <i>Fire Rocks – Riyadh</i> | 01/2026 – Present
Riyadh (Ninja Projects) |
| <ul style="list-style-type: none">• Supported enterprise network infrastructure including Ruijie switches, UniFi controllers, and Fortinet firewalls.• Assisted in network configuration, wireless connectivity, and VLAN implementation.• Managed CCTV systems, DVR/NVR configuration, and remote access setup.• Coordinated with field technicians during on-site deployments and infrastructure projects.• Performed network troubleshooting, maintenance, and technical support. | |
| IT Support & Network Technician (7 years) , <i>Freelance IT & Network Technician</i> | 2018 – 2025
Damietta |
| <ul style="list-style-type: none">• Installing and configuring LAN/WAN network environments• Supporting network infrastructure and connectivity troubleshooting• Assisting in configuring switches and network-connected devices• Supporting wireless connectivity and remote access solutions• Installing and configuring CCTV systems (IP & Analog)• Configuring DVR/NVR devices and remote viewing access• Installing and supporting PBX, intercom, and access control systems• Performing hardware/software troubleshooting and technical support• Supporting multi-site technical operations and maintenance• Diagnosing and resolving network and surveillance system issues | |
| Software Development (Frontend) , <i>(Projects & Practical Development Experience)</i> | Present |
| <ul style="list-style-type: none">• Frontend developer experienced in building responsive web applications using HTML, CSS, JavaScript, React.js, and Next.js.• Experienced in REST API integration and modern component-based development.• Strong understanding of scalable UI development, problem-solving, and system-oriented thinking.• Mentored junior developers and supported practical learning through real-world projects. | |

Technical Skills

◆ IT Support & Troubleshooting

- LAN/WAN Configuration & Troubleshooting
- TCP/IP, DHCP, DNS & VLAN Configuration
- Managed Switch Configuration & Troubleshooting
- Wireless Networks Deployment & Optimization
- Access Point Configuration & Troubleshooting
- Network Infrastructure Support & Maintenance
- Router & Switch Configuration (Basic)
- Network Connectivity & Performance Troubleshooting
- Remote Access & Remote Support Solutions
- Multi-site Network Support
- IP Addressing & Subnetting
- Basic Network Security & Firewall Fundamentals

◆ Frontend Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js & Next.js
- Responsive Web Design
- Component-Based Architecture
- REST API Integration (Basic Level)

◆ CCTV & Low Current Systems

- IP & Analog CCTV Systems Installation & Maintenance
- DVR / NVR Configuration & Management
- CCTV Remote Access Configuration
- Surveillance System Troubleshooting
- PBX Installation & Configuration
- VoIP Basics & Extension Configuration • Intercom Systems Installation & Configuration
- Access Control Systems Support
- Structured Cabling (UTP / Coaxial) • Multi-site CCTV & Low Current Support

◆ Version Control & Development

Workflow(Affaware Course)

- Git & GitHub
- Branching Strategies (Feature / Develop / Main)
- Git Flow Workflow
- Code Versioning and Collaboration
